

Statistics Summary | Ukraine | March 2022

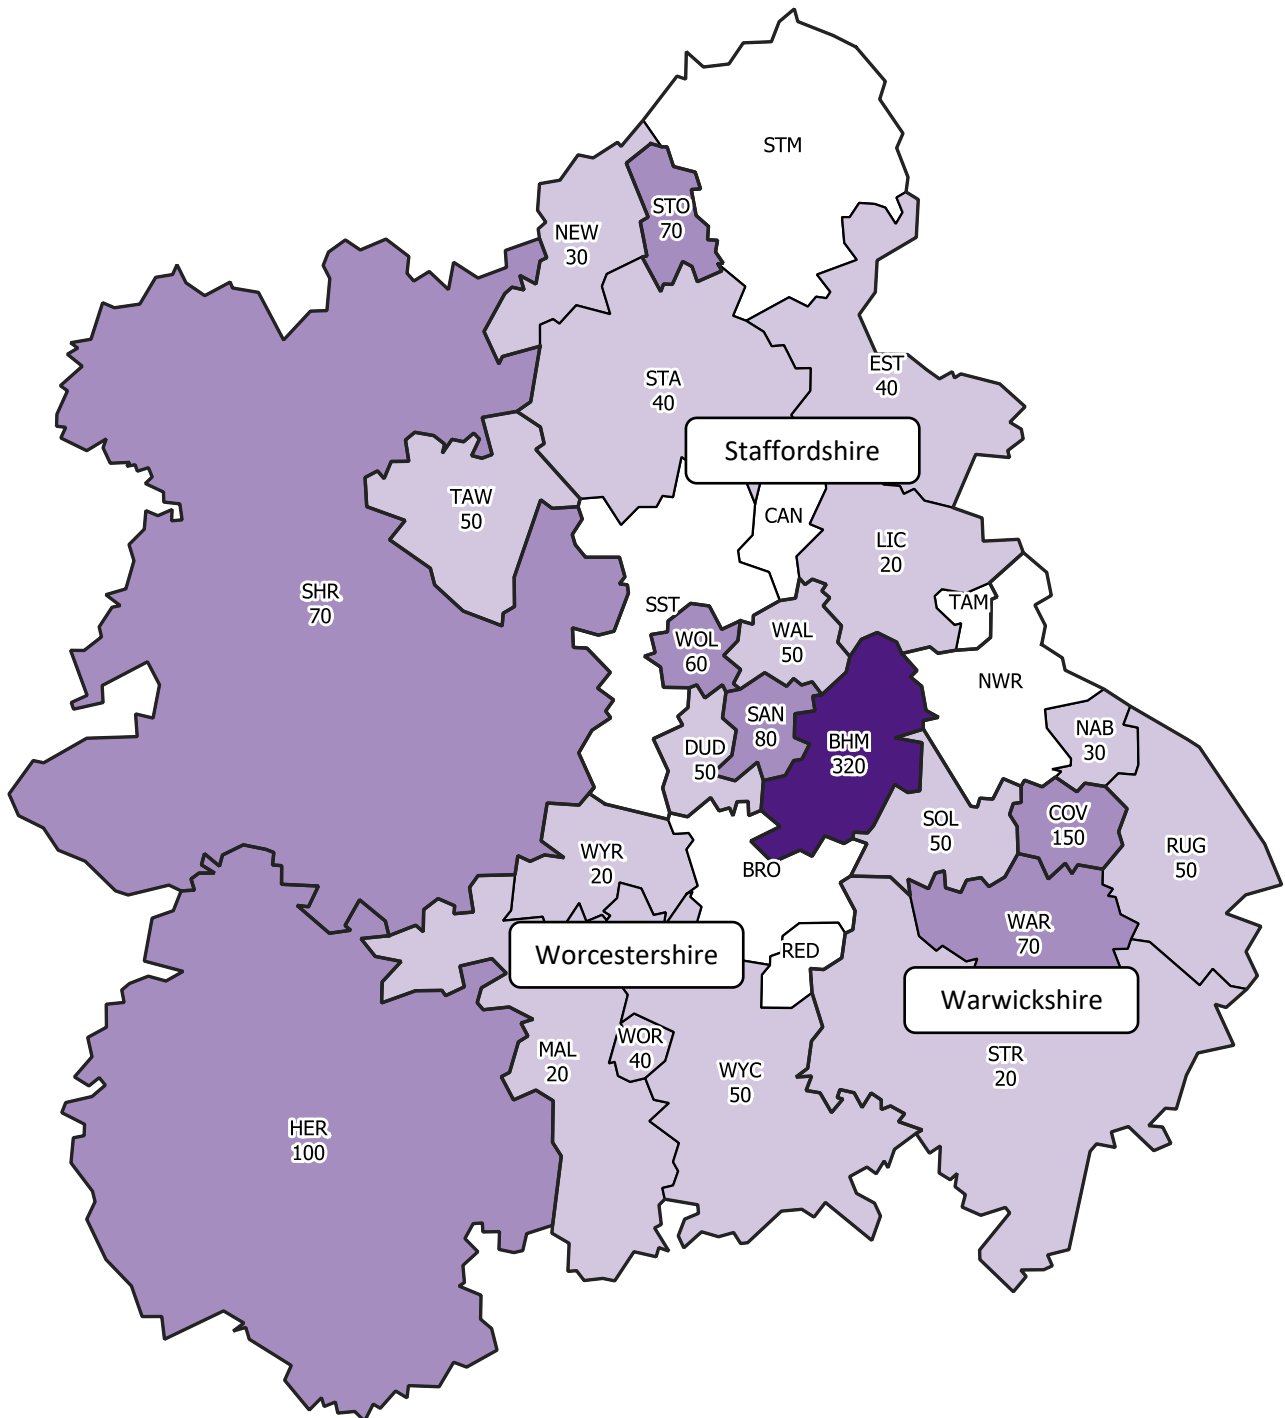

The ONS has released preliminary counts of country of birth by local authority for Ukraine and neighbouring countries from the UK Census 2021 to help local and national emergency response planning. This table below provides counts of Census 2021 by selected countries of birth based at Local Authority level on the day of the census (21 March 2021).

The WMSMP has summarised the data below. The original data can be found [here](#).

Area	Ref	Ukraine	Russia	Belarus	Estonia	Latvia	Lithuania	Moldova	Poland

Of the nationalities listed in the table above, the Polish Community is the largest in the West Midlands with 68,700 people born in Poland. This is followed by Latvia (9,540) and Lithuania (8,950) respectively.

The largest population of people born in Poland in the West Midlands are in:

- Warwickshire (9,360)
- Birmingham (9,230)
- Worcestershire (8,790)

The largest population of people born in Latvia in the West Midlands are in:

- Staffordshire (1,550)
- Coventry (1,460)
- Warwickshire (1,250)

The largest population of people born in Lithuania in the West Midlands are in:

- Wolverhampton (1,610)
- Birmingham (1,370)
- Staffordshire (820)

Notes on the data from ONS

In order to protect against disclosure of personal information, counts have been rounded to the nearest 10 and unrounded counts of less than 20 have been suppressed (shown as '0' in the table).

This means that total counts shown for England and Wales may not be the same as the sum of the counts shown for individual local authority districts.

Data contained in the table are counts of census responses. They are not final census estimates and have not been adjusted for undercoverage in the census.
